“This book opens our awareness to the importance of science and spirituality resolving issues that separate them and, in so doing, provide opportunities to resolve many of the world’s problems by working together for the enhancement of humankind. I consider this a ‘must read’.”

--*Rev. Dr. Angelo Pizelo*, Founder and Director, Emerson Theological Institute; Pastor and Director, The Positive Living Center Of Central California

“Dr. Royal Satterlee is a clear teacher of life Principles and expresses them in a way that provides clarity and ease of understanding. His over 30 years in ministry is evidenced in his way of bringing religion and science together, yet again, so the world may be offered the opportunity to verify that, indeed, we are ‘Spiritual Beings expressing our Spirituality through our Humanity.’ - Dr. Royal Satterlee brings the core values of the Science of Mind teaching to this writing -- in his own words, and provides the mental tools for us to use to transform our lives and, in the process, make the world a better place.”

--*Rev. Dr. Arleen Cuffaro Bump*, Senior Pastor, Center for Spiritual Living, Fort Lauderdale, Florida & past President of Religious Science International

“In his book *The Greater Dimensions of Spirituality*, Dr. Royal Satterlee offers us a laser look into the All which is everything, allowing us to more fully embrace the saying, ‘That which we are looking for we are looking with.’ Royal is a master Ontologist--one who studies the nature of Being. When we awaken to our own divinity we are able to look deeply into the nature of our Being. We are guided to see ourselves and the universe in which we live as more than solid objects existing separate and apart from the Whole. This is the Presence wherein any and every thing is continually being made new and all that is required to experience this reality is to have a shift in our perspective--to consciously live in First Cause; the awareness that God is All that is. Dr. Satterlee, no doubt one of the post modern advanced thinkers, is shattering the paradigm of three dimensional thinking unifying us with the field of pure potential where any ‘thing’ is truly possible. Read this book and get ready for some real shift to happen!”

--*Dr. Dennis Merritt Jones*, Author and 2008 Recipient of the “Ernest Holmes Legacy Award”

“Until about 300 years ago science and spirituality were a metaphysical whole. Meanwhile science has provided marvelous innovations and ignored the spiritual foundations of all life and creation. THE GREATER DIMENSIONS OF SPIRITUALITY reunites science and spirituality as integral components of the whole.”
